## Juice of Lemons Creates A Clear, Soft, Rosy Skin

Tells women how to make a lemon beauty cream cheaply for the face, neck, arms and hands

At the cost of a small jar of ordinary cold cream one can prepare a full quart of the most wonderful lemon skin softener and complexion beautifier by squeezing the juice of two fresh lemons into a bottle containing three ounces of orchard white. Care should be taken to strain the juice through a fine cloth so no lemon pulp gets in, then this lotion will keep fresh for months. Every woman knows that lemon juice is used to bleach and remove such blemishes as sallowness, freckles and

tan and is the ideal skin softener and beautifier.

Just try it! Get three ounces of orchard white at any pharmacy or toilet counter and two lemons from the grocer and make up a quart of this sweetly fragrant lemon lotion and massage it daily into the face, neck, arms and hands. It naturally should help to soften, freshen, bleach and bring out the roses and beauty of any skin. It is wonderful to smoothen rough, red hands.—Adv.

## WILSON PROCLAIMS A RED CROSS WEEK

Calls Upon the People of the Nation to Give Generously for the Work.

WASHINGTON, May 25.—In the following proclamation to the American people President Wilson today designated the week ending June 11 as Red Cross Week. The text of the proclamation follows:

"Inasmuch as our thoughts as a nation are now turned in united purpose towards the performance of the utmost of the services and duties which we have assumed in the cause of justice and liberty;

"Inasmuch as but a small proportion of our people can have the opportunity to serve upon the actual field of battle, but all men, women and children alike may serve and serve effectively by making it possible to care properly for those who do serve under the arms at home and abroad;

"And inasmuch as the American Red Cross is the official recognized agency for voluntary effort in behalf of the armed forces of the nation and for the administration of relief.

"Now, therefore, by virtue of my authority as President of the United States and President of the American Red Cross, I, Woodrow Wilson, do hereby proclaim the week ending June 11, 1917, as Red Cross Week, during which the people of the United States will be called upon to give generously and in a spirit of patriotic

sacrifice for the support and maintenance of this work of national need.

## U. S. LEGATION GIVES REAL NEWS TO SWISS

Offsets German Propaganda by Providing Press with Facts from America.

BERNE, Switzerland, May 25 (via Paris).—The new departure of the American Legation in furnishing to the Swiss press concise news despatches cabled by the new branch of the State Department appears to be welcome to all but the out-and-out Germanophile portion of the press. The French and independent German language papers have made use of everything furnished to them in this way and express themselves as desirous of obtaining and publishing all available news from America.

There has been an absolute absence of propaganda in the news furnished thus far, and its real value cannot be too highly estimated. It is a welcome relief from the surfeit of ponderous or violent "literature" which the Swiss press has been and is being flooded from German sources.

## CANADIANS HELD UP IN EFFORT TO CROSS TO U. S.

No Persons of Military Age Allowed to Board a Ferry to Detroit Until Examined.

DETROIT, May 25.—Thousands of persons attempting to come to Detroit from Windsor, Ont., this forenoon, were detained at the ferry station by Canadian officials, who began rigid enforcement of the Dominion's military laws. No person of military age was allowed to board a ferry until he had convinced the officials that he was not seeking to avoid conscription.

Every person passing through the ferry gates was questioned and great congestion resulted. Most of the

Windsor residents who are employed in Detroit were detained at least an hour at the station on account of the crush.

# We Cash Your Liberty Bonds at \$110 As Payment for Marion-Handley Cars

Good business—trading is most vitally important to every American man, woman or child. Foolish economy is ruinous to all.

Our government has counseled economy only as it applies to wasteful extravagance. A good motor car is not a wasteful luxury. It is an investment which pays a good dividend.

Uncle Sam needs men and money. Those of us who can't fight can furnish our part of the sinews of war by buying Liberty Bonds.

Many good Americans who had planned to buy a car this Spring have since decided to put money into Liberty Bonds. That's real patriotism.

One or two Mo or Car manufacturers have offered to accept Liberty Bonds at par or a shade above par in lieu of cash in payment for their cars. That's good business because the bonds are worth par.

We propose to help our folks two ways and to join with them in buying Liberty Bonds. Here's the proposition. Buy your Liberty Bonds and thus let your money serve your country, then buy your Motor Car and we will accept your bonds at \$110 for every \$100 you pay.
